

ANNUAL FACILITY MAINTENANCE UPDATE

NOV. 9th — NOV. 30th

In response to some member concerns about the planned November facility maintenance, the PSC board and staff have decided to reduce the scope of the maintenance work this November, in order to allow a 2-week rather than 3-week scheduled closure. Please see details below.

The PSC will be closed for our annual facility maintenance from November 9th to November 23rd, 2009. We will re-open for regular scheduled hours on November 24, 2009; however, the closure dates are subject to weather delays. Due to the nature of the maintenance, we will be unable to grant access to the facility once we are closed. If there are personal belongings or equipment (i.e. locker contents) that need to be gathered, please do so before November 9th. The PSC will not be responsible for any items left in lockers.

THANK YOU
